TO: Mayor Justin Berns, Finance Chair Jillian DeLong
FROM: Larry Heiser, Finance Director *244*
DATE: August 6, 2024 *At R*
SUBJECT: 2024 Third Budget Amendment

I am requesting the third budget amendment for 2024,

General Fund (101)

- 1) For the Pool Budget: General Fund 531 Pools and Parks: Increasing Wages and benefits by \$68,000 from \$393,000 to \$461,000. The increase is mostly due to hiring concessions employees along with operations of the pool staff.
- 2) Increase Mayor's Wages and Benefits by \$50,000 due to the hiring of the communications position.
- 3) Increase council wages and benefits by \$3,000, which will cover the 2024 wage increase for non-elected positions.

Law Enforcement Trust Fund (243)

- 1) Decrease budget by \$55,000 from \$230,000 to 175,000 to reflect the adjustment to the Federal Equitable Sharing Fund (241) by Federal grant advisors and lower than expected reimbursements in 2024.

Nopec Grant Fund (282)

- 1) Lower budget to zero from \$30,000 as no funds will be pulled down for projects in 2024 and the LED parking lot lighting project is complete.

Police Pension Fund (784)

- 1) Increase budget by \$77,000 from \$493,000 to \$570,000 due to increase in revenue for the Police Pension fund.

Zone Income Taxes Fund (785)

- 1) Increase budget by \$2.5 million from \$10,000,000 to \$12,500,000 to reflect operations in both the east and west Jedds (Joint economic development districts) for 2024.

Please call or email if you have any questions.

Service Agreement for Beachwood, OH

Permit, License and Code Enforcement System

Summary of Solution

Camino is a web-based solution that improves the customer experience for permit, licensing and code enforcement processes. Camino software is provided through a SaaS (software as a service) model, meaning that all functionality is accessed through the internet on a subscription basis. For this proposal Camino is excited to offer the solutions outlined below.

Permit, Licensing and Code Enforcement System:

Camino will assist in configuring and running a hosted Permit/Licensing and Code Enforcement System for the agency. The agency has the following needs that will be addressed under this scope:

- A fully hosted, web-based system that is accessible to staff and applicants.
- A smart application portal that generates a set of requirements based on the details of the application.
- Application review and reporting.
- Fee Generation and online payment capabilities.
- Document upload and storage.
- Internal review and task management.
- Inspection management.

Agency staff with Administrator-level permissions will be able to do the following configuration within the Permitting System:

- Build any type of Guide option they wish.
- Configure an unlimited number of internal users. Staff will be able to add and remove users at any time.
- Upload PDF files to create digital forms with overlaid fields or signatures that need to be collected from applicants.
- Define fees that need to be collected from applicants. Fees can be defined by a formula that includes numeric variables.
- Require that certain documents need to be uploaded as part of an application process.
- Create a series of templates for common tasks such as inspections or internal reviews.
- Use a logic-driven rules engine to create the different application, review, and inspection processes based on information provided by the applicant. The rules can also be driven by GIS queries. Camino will integrate commission-provided GIS layers into the Permit/Licensing and Code Enforcement System.
- Configure the different Record types to be issued. Each Record type can be set to expire after a period of time. A re-application workflow can be defined for each license type and will automatically begin during the expiration window.
- Customize instructions and helper text through a rich text editor.
- Configure Data Fields that can be reused throughout the system in rules, fee calculations and on forms. Data Fields can be configured with a default value.
- Configure User Fields that will be saved to each Applicant user's account and auto populated on new Submissions.
- Create customizable workflows with custom statuses, transitions, and auto-transitions based on task completion.
- Configure tasks or steps to be auto assigned based on workflow status.
- Configure a set of pre-defined message templates that can be used for messaging within Submissions.
- Manage GIS layers with the Camino Geo Service:
 - Add, remove or view existing layers and history.
 - Import layers as shapefiles or through an ESRI URL.
 - Update layer data manually at any frequency.

All Agency staff will be able to do the following (from a desktop or iPad browser):

- View a table of all Submissions. Filter and search by any Data Field, User Field or System Field.
 - Create Saved Views based on a specific set of filters. Saved views can be private or global.
 - Export a CSV file of all Submissions
- For each Submission:
 - Update the status within the associated workflow, as long as required steps have been completed. Required steps and tasks will automatically be added as the workflow advances.
 - Request changes on specific steps for the applicant to re-complete.
 - View the current Applicant's information and transfer ownership to a new Applicant.
 - View all tasks assigned to the applicant and to internal staff. View task status.

- Add or remove tasks. Assign tasks to any user and specify a due date. Mark tasks as complete.
- Manage Reviews:
 - Assign each review to a user or group.
 - Add documents to each review.
 - Share correction letters and markups with the Applicant.
 - If integrated with a 3rd-party review system, send and receive documents from that system.
- Manage Inspections:
- View all financial transactions and outstanding fees.
 - Refund (partially or fully) fees that have been paid.
 - Manually adjust the value of any fee before it is paid.
 - Add a note to each transaction.
- Fill out internal forms.
- View all answers provided by the applicant and all GIS queries that were run against the Submission.
- View, update, add and remove data fields that were collected during the application.
- View all documents that were uploaded by the applicant and by other staff. View a date stamp on each document.
- Upload new documents directly to the submission. If on a tablet or mobile, attach photographs.
- Issue a Record (Permit, License, or Code Violation) to the Submission. View all Records that have been issued to the Submission.
- Send messages directly to the applicant through any task or application step. Pre-defined message templates can be searched for and added.
- Log private, internal notes on any task or application step or on the Submission directly.
- View an Activity Feed showing all messages sent, status updates, payment modifications, and automated emails.
- View a map showing how the Submission address interacts with GIS and parcel attributes. Please note that the map will not show GIS layers aside from parcels.
- Change or update the address for the Submission.
- Log time spent working on the Submission for time-tracking purposes. View a history of all logged time by a user.
- Subscribe to the Submission to receive notifications and updates.
- Create a new Submission on behalf of an applicant and assign it to their account.
- View a table of all Records that have been issued. For each Record, view the expiration status (active, expiring soon, expired) and manually update the expiration date. Void or archive records.
- View a list of all tasks assigned to a user, or all tasks across the system. Sort and filter by status, assignment, due date.
- View all Submissions and Records on a map. Select a location to view all Submission and Records at that address.
- Receive email notifications when an applicant sends a chat message and when a task is assigned to a user. A notification is also sent when a task nears its due date.
- Integrate a payment processor to process financial transactions through Camino.
- Search, view or export a CSV file of all financial transactions processed or recorded within Camino.

Applicants will be able to do the following:

- Create an account based on an email address. All progress is saved in real-time when logged in.
- View a list of any applications (in progress or submitted) that have been issued.
- Go through a guided application process that starts with a survey. The survey asks for the type of permit, the location, and additional details defined by the Commission. These factors then generate a list of required steps for the applicant to complete.
- Be automatically informed of any location-based restrictions at their address.
- View a checklist-style list of all tasks that have been completed and that are pending.
- Fill out digital forms and sign with a digital signature.
- Upload documents by dragging-and-dropping from their desktop.
- View auto-calculated fees and pay fees via credit card. A transaction fee is applied to all credit card payments, set by the payment processor.
- Send chat messages directly to the agency.
- Receive email notifications when a chat message is sent by the agency, when the application status is updated, and when a Record is issued.
- Camino will allow applicants to schedule inspections through a calendar interface. Calendar invites will be sent to the applicant and inspector.
- View any Records that have been issued to the Submission.

- Receive an email notification when a Record is nearing expiration. The applicant will be invited back to the system to complete any required re-application steps.

Camino currently supports the following integrations out of the box. New integrations can be configured or built using Camino's API:

- Payment Processors
 - Stripe
 - Invoice Cloud
 - Point and Pay
 - Authorize.net
- Plan Review / Markup
 - ePlanSoft
 - Blue Beam

Camino may from time to time engage third parties (each a “**Subcontractor**”), such as independent contractors, affiliates, service providers, licensees and agents, to perform any part of the Implementation Services. Camino will: (a) remain directly responsible to the Customer for the acts or omissions of each Subcontractor; and (b) ensure that each Subcontractor is bound in writing to terms equally as protective of the Customer as the terms and conditions of this Agreement.

Changes to Services. The Customer may request, and Camino may in its discretion provide, an upgrade or downgrade in the level of Services or part thereof, and the applicable Services may be amended, modified or supplemented pursuant to such request with mutual consent and in a written form satisfactory to Camino (a “**Change Order**”). Change Orders may require changes in the applicable fees payable by the Customer, and any such changes will be specified in the Change Order and payable by the Customer in accordance with the terms of the Change Order. Notwithstanding anything in this Agreement Camino may in its discretion change the Services from time to time, provided such any such change does not diminish the functionality of the Services on which the Customer materially relies.

Technical Support Services. Camino shall, to the extent specified in the Quote or an applicable Order, provide technical support to Customer regarding the use and operation of the Camino Solution that was configured or developed by Camino pursuant to this Agreement. The terms and conditions of such support services, including but not limited to

support service hours and availability, service levels targets and severity levels are outlined in the Camino Customer Service Terms, attached hereto as **Exhibit "A"**.

Dependencies. Customer understands that Camino's performance depends on Customer timely providing Camino with relevant data, feedback and configuration assistance. Any dates or time periods relevant to Camino's performance of its obligations hereunder or pursuant hereto will be extended appropriately and equitably to reflect any delays caused by Customer's failure to timely deliver any such materials. Camino shall not be liable for any delays in performance under this Agreement resulting from Customer's failure to meet these obligations.

FEES AND PAYMENT TERMS

SAAS Fees. The Customer will pay to Camino the fees for the SAAS Services (the "**SAAS Fees**") upfront annually, and in accordance with the payment instructions detailed in each Order or Change Order (as applicable). Unless otherwise expressly provided in an Order or Change Order, any SAAS Services added during a billing period will be subject to payment of SAAS Fees for a minimum of 12 months. All SAAS Fees will be based upon the total quantity of SAAS Services specified in applicable Orders and Change Orders, whether or not the corresponding SAAS Services are actively used during the billing period. SAAS Fees payable under this Agreement are: (i) non-refundable; and (ii) exclusive of any and all taxes, withholdings and other levies and imposts applicable thereon ("**Taxes**"), and such Taxes will be invoiced together with the SAAS Fees, unless Customer is exempt from such Taxes. Unless otherwise expressly set out in an Order or Change Order (as applicable), all invoices for the SAAS Services are payable thirty (30) days after delivery. Camino reserves the right to change the SAAS Fees with respect to existing service levels on an annual basis, at the end of the Initial Term or the then-current Renewal Term, upon at least thirty (30) days prior written notice to Customer (which may be sent by email).

Without limiting any other remedy available to Camino, in the event that any of the Customer's payment obligations are overdue and outstanding, Camino may, in its discretion: (a) terminate this Agreement immediately upon notice to the Customer; and/or (b) suspend its obligations to the Customer relating to the Services until such time as all amounts due and owing under this Agreement are paid in full.

Camino is under no obligation to verify the actual identity or authority of the User of any Codes, Accounts or the SAAS Services, and is not responsible or liable for unauthorized access to the SAAS Services or any unauthorized or alteration, theft or destruction of any information contained therein through accident, fraudulent means or devices, or any other method, unless it is the direct result of Camino's gross negligence.

Injunctive Relief. Each party acknowledges and agrees that should it breach its obligations of non-disclosure under this Section 6, the other party may suffer harm which may not be adequately compensated by monetary damages. In such event, the non-breaching party may, in addition to any other remedy available in law or equity, seek specific performance and injunctive or other equitable relief without bond or proof of damages.

CUSTOMER DATA

Ownership of Customer Data. As between Camino and the Customer, the Customer is and will remain the sole and exclusive owner of all Customer Data. TERMINATION AND SUSPENSION

Termination for Cause. Either party may terminate this Agreement immediately upon notice if the other party fails to correct a material breach of its obligations under this Agreement within thirty (30) days (ten (10) days, in the case of non-payment) after receipt by such other party of written notification from the notifying party of such material breach.

RE: Council Agenda Item: Solid Waste and Recycling Contracts

Mayor,

Our current solid waste and recycling contract with Kimble Company is set to expire on September 30th of this year. As you know, we are a member of the Cuyahoga County Solid Waste District Consortium that includes Independence, Highland Hills, Lyndhurst, Moreland Hills, University Heights, Solon and Pepper Pike.

Bids were opened on July 9th and evaluated by the consortium community members and the Solid Waste District. The lowest and best bid for the disposal of solid waste was submitted by Kimble Company with a cost of \$46.69 per ton for the first year and second year cost of \$48.18 per ton. The contract also has an extension option for the third and fourth-year with a cost \$49.72 and \$51.31 per ton.

The lowest and best bid for recycling processing services was submitted by Waste Management of Ohio Inc. with a cost of \$74.50 per ton. This cost will fluctuate based on the market price of recycled materials and the audit of the materials delivered to the Materials Recovery Facility.

Attached are the bid tabulations and a copy of the new contracts. Please let me know if you have any questions or concerns in regards to these agreements. With your permission, I would like to place these two items on the next council agenda.
