SUBJECT: Request for Authorization to Bid – Phase I Signage Project

The City previously initiated a comprehensive signage program to establish a cohesive wayfinding and identity system for major City facilities and destinations. The effort began several years ago and resulted in the installation of the Changeable Copy Sign at the corner of Richmond and Fairmount, which was designed by Guide Studios.

Guide Studios also developed a broader signage package that includes a variety of sign types intended to guide residents and visitors to key city locations. The package was designed so the City can implement signage improvements in phases as funding allows.

We are now prepared to move forward with **Phase 1** of the signage project and are requesting Council's authorization to bid the project. Phase 1 will include:

- 3 City Park Signs, including the new Gorden Gateway Park Sign
- City Hall and Community Center identification signage
- Directional signage for the City Hall parking lot

The bid package will also include two alternate items:

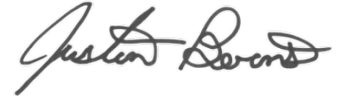

- Fire Station 1 signage
- Commerce Park – Chagrin signage

This project is estimated at approximately **\$90,000**, excluding the alternate bid items. We respectfully request authorization from City Council to proceed with bidding for Phase 1 of the City Signage Project.

Thank you for your consideration.

ORDINANCE NO. 2026-9

AN ORDINANCE AUTHORIZING THE DIRECTOR OF FINANCE TO TRANSFER CERTAIN FUNDS FROM THE GENERAL FUND (101) TO THE CAPITAL IMPROVEMENTS FUND (441); AND DECLARING THIS TO BE AN URGENT MEASURE

WHEREAS, based upon the recommendation of the Finance Director, this Council desires to transfer Three Million Five Hundred Thousand Dollars and No/Cents (\$3,500,000.00) from the General Fund (101) to the Capital Improvements Fund (441).

NOW, THEREFORE, BE IT ORDAINED by the Council of the City of Beachwood, County of Cuyahoga, and State of Ohio, that:

Section 1: The Finance Director is hereby authorized and directed to transfer Three Million Five Hundred Thousand Dollars and No/Cents (\$3,500,000.00) from the General Fund (101) to the Capital Improvements Fund (441).

Section 2: It is found and determined that all formal actions and deliberations of Council and its committees, relating to the passage of this legislation that resulted in formal action were in meetings open to the public where required by Chapter 105 of the Codified Ordinances of the City.

Section 3: This Ordinance is declared to be an urgent measure necessary for the preservation of the public peace, health, safety, or the efficient operation of the City; and for the further reason that the transfer of funds authorized herein is needed to ensure the timely payment of expenses and proper functioning of City departments; wherefore, this Ordinance shall be in full force and effect immediately upon its passage and approval by the Mayor.

FROM: Larry Heiser, Finance Director *LHH*
DATE: February 18, 2026
SUBJECT: Bidding requirements RC 9.17 and ORC 307.86

All: Below is the change to Orc 9.17 which became effective starting in 2024. The former bid threshold was \$50,000 which based upon rising costs was changed to \$75,000 with a yearly 3% escalator. With the increase of pricing of materials and services I am requesting that Council approves the change to follow ORC 9.17 and increase the bidding threshold accordingly. This is not an increase in the Mayor's spending authority and all items above the Mayor's spending limit will still need Council approval. The City would still be looking to get competitive pricing from vendors above the \$25,000 to the \$75,000 limit as we currently operate. Additionally, ORC 307.86 regulates notice of bidding and the avenues to advertise. We would like to adopt wording similar ORC 307.86 and our own code 1107.01 wording for bidding as advertising in a newspaper is less and less effective and costly as well as delays in bidding dates. With your approval we would like to introduce legislation at the next available Council meeting. Please find the relative code sections below:

ORC 9.17 Competitive bidding threshold amount:

- A) The amount for purposes of a provision of the Revised Code that references this section shall be as follows:
- 1) Beginning on the effective date of this section through calendar year 2024, seventy-five thousand dollars;
 - (2) For each calendar year thereafter, the amount for the previous calendar year increased by three per cent as determined and published by the director of commerce.

ORC 307.86 Notice of competitive bidding:

Where competitive bidding is required by section 307.86 of the Revised Code, notice thereof shall be given in the following manner:

- (A) Notice shall be published once a week for not less than two consecutive weeks preceding the day of the opening of bids for any purchase, lease, lease with option or agreement to purchase, or construction contract in excess of the amount specified in section 9.17 of the Revised Code, using at least one of the following methods:
- (1) In the print or digital edition of a newspaper of general circulation within the county;
 - (2) On the official public notice website established under section 125.182 of the Revised Code;
 - (3) On the website and social media account of the county.

(B) Notices shall state all of the following:

- (1) A general description of the subject of the proposed contract and the time and place where the plans and specifications or itemized list of supplies, facilities, or equipment and estimated quantities can be obtained or examined;
- (2) The time and place where bids will be opened;
- (3) The time and place for filing bids;
- (4) The terms of the proposed purchase;
- (5) Conditions under which bids will be received.

1107.01 Amendment procedure. Council may amend the zoning regulations and rezone property within the City on its own motion, or at the request of a property owner or owner's agent, with the following procedure. Every proposed amendment shall be submitted to the Council first for its initial consideration. Proposed amendments, prior to adoption, shall be referred to the Commission for a report and recommendation. Upon receipt of the report and recommendation of the Commission, the Council shall conduct a public hearing. Public notice of the hearing shall be published on the City's official website and on the City's official social media pages and electronic changeable copy sign for a period of not less than thirty (30) days prior to the date of the hearing. In addition, in the situation of a proposed amendment to the Zone Map designation of a zoning district to be applied to a parcel or parcels, written notice of the public hearing shall be delivered to all Adjoining Property owners, as defined herein, by a nationally recognized delivery service or by hand-delivery, with delivery made no less than ten (10) days prior to the public hearing date.

WHEREAS, Ohio Revised Code Section 149.43(B)(1) authorizes a state or local law enforcement agency to charge a requester of public records the actual cost associated with preparing a video record for inspection or production, not to exceed seventy-five dollars (\$75.00) per hour of video produced, nor seven hundred fifty dollars (\$750.00) total; and

WHEREAS, said statute further authorizes a state or local law enforcement agency to require that a requester pay the estimated actual cost for inspection or production before the process of preparing the video record begins; and

WHEREAS, the intention of this law is to help law enforcement agencies cover the administrative costs associated with the proper editing or redacting video records for public inspection or release; and

WHEREAS, the City of Beachwood is responsible for processing and redacting video footage in response to public records requests and utilizes various public records management systems to process public records requests, which require staffing, time, financial and other resources to comply with state law; and

RE: Street Lighting Blossom Lane and George Zeiger
DATE: February 24, 2026

Every 5 years the City must reassess Blossom Drive residents and George Zeiger Drive Businesses for street lighting. Blossom Lane: the calculation for the 2026 assessments is \$672.28 per resident cost for 5 years. This represents a monthly cost of \$11.20 for each parcel. I have built in a slight escalator of 3% to cover any increases over the next 5-year period. As Council may recall I requested a \$2,000 transfer into the Blossom Fund in 2025 due to the fact that collections for the 2021 assessments did not appear to generate enough revenue to pay the relative invoices for Blossom. If we run a slight surplus moving forward, I would advocate after 4 years to transfer monies back to the General Fund from the Blossom Drive Fund (261).

George Zeiger: Due to the actual balance in the fund, I am recommending that total assessments increase from a total of \$70,000 to \$77,000. There are approximately 11 property owners assessed, and the formula is based on the linear feet of benefit for the property.

There are 3 parts to this process. First a Resolution of necessity. Second, an Ordinance to proceed with the Improvement. Lastly, an ordinance to assess the property owners. The Finance Department will send out invoices to the property owners for the assessments. For those residents which do not pay up front, the City will assess the lighting on the property tax duplicate for 5 years.

With your approval I would like to place this ordinance on the next available Council agenda.

Please let me know if you have any questions.

Thank You.

RESOLUTION NO. 2026-31

A RESOLUTION DECLARING IT NECESSARY TO IMPROVE BLOSSOM ROAD BETWEEN CERTAIN TERMINI IN THE CITY OF BEACHWOOD, OHIO, BY PROVIDING STREET LIGHTING; AND DECLARING THIS TO BE AN URGENT MEASURE

WHEREAS, the City has previously authorized and requested The Cleveland Electric Illuminating Company, the City Engineer, and the Finance Director to prepare plans, profiles, specifications and an estimate of cost for the improvement described in Section 1 below;

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Beachwood, County of Cuyahoga, and State of Ohio, that:

Section 1. It is declared necessary to improve Blossom Road from Timberlane Road to the southerly terminus of Blossom Road by providing street lighting for a period of five years with seven underground-fed, 100-watt high pressure sodium post top lamps.

Section 2. The specifications and estimate of cost of the improvement now on file in the office of the Clerk of the Council are approved.

Section 3. This Council finds and determines that: (i) the improvement is conducive to the public health, convenience and welfare of this City and the inhabitants thereof and (ii) the lots and lands to be assessed as described in Section 4 hereof are specially benefited by the improvement.

Section 4. The whole cost of the improvement, less 2% of that cost, there being no intersections, shall be assessed in proportion to the benefits which may result from the improvement upon the lots and lands bounding and abutting upon Blossom Road between the termini described in Section 1 hereof.

Section 5. The cost of the improvement shall include all costs of the annual amount charged by The Cleveland Electric Illuminating Company for providing electricity, the cost of specifications and estimates and of printing, serving and publishing notices, resolutions and ordinances, the costs incurred in connection with the preparation, levy and collection of the special assessments, the cost of obtaining legal descriptions and title insurance in connection with the determination of title to the properties to be assessed for the improvement, expenses of legal services, and cost of labor and material, together with all other necessary expenditures. Section 6. The Finance Director is authorized and directed to prepare and file in the office of the Clerk of the Council the estimated special assessments of the cost of the improvement described in this Resolution. Those estimated special assessments shall be based upon the estimate of cost of the improvement now on file in the office of the Clerk of the Council and shall be prepared pursuant to the provisions of this Resolution. When the estimated special assessments have been so filed, the Clerk of the Council shall cause notice of the adoption of this Resolution and the filing of the estimated special assessments to be served in the manner provided by law on the owners of all lots and lands to be assessed.

Section 7. The special assessments to be levied shall be paid according to the following payment schedule: in five annual installments, with interest at the rate or rates determined by Council when it passes the assessing ordinance levying those special assessments on the unpaid amount of such special assessments; provided that the owner of any property assessed may pay the special assessment in cash within 30 days after passage of the assessing ordinance.

Section 8. The special assessments to be levied may be levied and collected before the improvement is commenced or completed.

Section 9. Bonds or notes of the City shall not be issued in anticipation of the levy or collection of the special assessments. The remainder of the cost of the improvement after application of the special assessments shall be paid from other available funds of the City.

Section 10. In the event that after the special assessments are certified to the County Auditor for collection: (i) the annual amount charged by The Cleveland Electric Illuminating Company for providing electricity is increased or (ii) the City is required to advance, from funds other than special assessments collected, moneys to pay the annual amount charged by The Cleveland Electric Illuminating Company for providing electricity, the Clerk of the Council is authorized to calculate and determine the resulting increase in the special assessment against each property, including interest on the moneys advanced, at the rate or rates determined by Council when it passes the assessing ordinance. The increased special assessments shall be in proportion to the original special assessments certified to the County Fiscal Officer. The Clerk of the Council shall cause notice of the resulting increases to be served on the owners of all lots and lands assessed in the manner set forth in Ohio Revised Code Section 727.13 for service of notice of the passage of a resolution of necessity and the filing of the estimated assessments. Any owner of a lot or parcel who objects to the amount of the increased special assessments shall file such objection in writing with the Clerk of the Council within two weeks from the date of completion of the notice required under this section. Such objection shall include the address for mailing of the notice of the meeting of the assessment equalization board hereinafter provided for. An owner who fails to so file an objection shall be deemed to have waived any objection. In the event any objections are received and in the event Council does not provide for another procedure, Council shall appoint an assessment equalization board, consisting of three disinterested freeholders of the City to hear the objections and shall fix the time and place of such hearing. Such notice shall be mailed at least five days before the date of such hearing. The assessment equalization board shall have the powers and duties of an assessment equalization board set forth in Ohio Revised Code Section 727.17. Council may approve or disapprove the report, including any changes recommended by the board in the estimated assessments. In the event Council disapproves the report of the board it shall appoint a new board and shall fix the time and place for the hearing by such board of objections. Such new board shall have the same powers and duties and shall proceed in the same manner as the original board. When Council has approved the report, the Clerk of the Council shall certify the corrected special assessments to the County Fiscal Officer.

Memorandum

To: Larry Heiser, Finance Director
From: Craig Kaufman, IT Manager
Subject: Microsoft Office 365
Date: February 18, 2026

Approved 2/20/2026

I am requesting authorization to renew our Microsoft Office 365 subscription for a new three-year term at a total cost of \$121,181.76. This renewal ensures continued access to Office 365 and Exchange services, along with automatic updates, security patches, and the latest software versions throughout the contract period. Although Exchange is hosted by Microsoft, we will continue to maintain our email backups through our existing cloud service.

This renewal is available through Dell Marketing LP under the State of Ohio Joint Purchase Master Contract #CSP029109. Pricing is based on the number of licensed users; therefore, costs may increase if additional employees require email or Office services. However, the per-user rate is locked for the full three years.

Dell holds the state contract for Microsoft Office, and it is my recommendation that we proceed with the renewal through Dell Marketing LP at a cost of \$40,393.92 per year for three years. I have attached the quote and state term pricing.

I am requesting that this item be added to the next council agenda for consideration.

Cc: Carol Morrison

A RESOLUTION ACCEPTING A QUOTATION FROM DELL MARKETING LP FOR THE PURCHASE OF MICROSOFT OFFICE 365, WAIVING COMPETITIVE BIDDING; AND DECLARING THIS TO BE AN URGENT MEASURE

WHEREAS, Council by Ordinance No. 1986-79 authorized the Mayor to enter into purchase orders with suppliers of products and/or services from a list prepared by the State of Ohio, after the State received competitively bid contracts with such suppliers in accordance with the State laws;

WHEREAS, the IT Manager has recommended the purchase of Microsoft Office 365 as outlined in the Memorandum to the Finance Director dated February 18, 2026;

WHEREAS, Dell Marketing LP pricing is in accordance with the State of Ohio Joint Purchase Master Contract #csp-029109;

WHEREAS, the purchase amount is Forty Thousand Three Hundred Ninety-Three Dollars and Ninety-Two Cents (\$40,393.92) per year for three (3) years for a total amount not to exceed One Hundred Twenty-One Thousand One Hundred Eighty-One Dollars and Seventy-Six Cents (\$121,181.76).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Beachwood, County of Cuyahoga, and State of Ohio, that:

Section 1: The Mayor is hereby authorized and directed to purchase Microsoft Office 365 from Dell Marketing, LP in a total amount not to exceed One Hundred Twenty-One Thousand One Hundred Eighty-One Dollars and Seventy-Six Cents (\$121,181.76), and this Council waives competitive bidding. A copy of the quotation is attached hereto and incorporated herein as Exhibit "A".

Section 2: It is found and determined that all formal actions and deliberations of Council and its committees relating to the passage of this legislation that resulted in formal action were in meetings open to the public where required by Chapter 105 of the Codified Ordinances of the City.

Section 3: This Resolution is declared to be an urgent measure necessary for the preservation of the public peace, health, safety, or the efficient operation of the City; and for the further reason that the necessary software critical to City operations be purchased at the earliest time; wherefore, this Resolution shall be in full force and effect immediately upon its passage and approval by the Mayor.

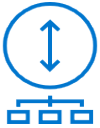

Attest: I hereby certify this legislation was duly adopted on the 9th day of March, 2026, and presented to the Mayor for approval or rejection in accordance with Article III, Section 8 of the Charter on the 10th day of March, 2026.

Clerk

Approval: I have approved this legislation this 10th day of March, 2026 and filed it with the Clerk.

**BEACHWOOD CLERK OF COUNCIL
INTER-OFFICE MEMORANDUM**

TO: City Council

FR: Whitney M. Crook, MMC, CPM, Clerk of Council/Civil Service Coordinator

DT: February 12, 2026

RE: Summary of Proposed Amendments to the Civil Service Commission Rules

Purpose:

This memorandum is intended to inform City Council of the proposed amendments to the Civil Service Commission Rules as approved by the Civil Service Commission, the process undertaken to develop those amendments, and the key changes requiring Council approval pursuant to the City Charter.

The Civil Service Commission Rules govern the administration of examinations, appointments, promotions, and other personnel matters for classified service positions (Police and Fire Department personnel) within the City. Pursuant to Article VI, Section 3(3) of the City Charter, all rules promulgated by the Civil Service Commission are subject to approval by City Council before becoming effective.

The Rules amendments before Council reflect a comprehensive review of the existing Rules to ensure clarity, consistency, and alignment with operational needs, legal requirements, and best practices in civil service administration. Council approval is required to formally adopt these amendments and authorize their implementation.

Process and Review

The review and amendment process was collaborative and deliberate. Initial meetings were held with the Fire Chief, Police Chief and City Administration to identify operational considerations, departmental needs, and areas where clarification or modernization of the rules would be beneficial. These discussions included topics related to examinations, promotions, scoring practices, and minimum qualifications.

Following these discussions, the Civil Service Commission conducted several meetings to review, discuss, and refine the proposed amendments. The Commission carefully evaluated recommended changes, considered feedback from City administration, the Law Director, and department leadership, and made revisions where appropriate to ensure fairness, consistency, and compliance with applicable law. After thorough discussion and refinement, the Commission formally adopted the proposed amendments.

Summary of Proposed Changes

Significant elements of the proposed amendments include the following:

- Establishment of defined minimum qualifications for Police Department candidates
- Elimination of additional seniority points for promotional candidates in both the Police and Fire Departments
- Transition from weighted percentage-based scoring to a points-based scoring system for all Entry Level and Lateral Transfer Fire and Police civil service examinations
- Clarification and refinement of examination administration, scoring, and ranking procedures
- Updates to appointment, promotion, and eligibility list provisions
- Administrative and procedural revisions intended to improve transparency, consistency, and ease of application
- Modernization of language, revisions for internal consistency of language, and formatting for clarity and usability

Collectively, these changes are intended to promote fairness in the examination and promotional process, standardize scoring methodologies, and ensure the Civil Service Commission Rules clearly reflect current practices and expectations.

Please feel free to contact me should you have any questions or require additional information regarding the proposed amendments. I would be happy to provide any further details.

Respectfully submitted,

Whitney Crook
Civil Service Coordinator

- (b) Lateral Transfer Examination; and
- (c) Promotional Examination.

The Original Entry-Level Open Competitive, Lateral Transfer, and Promotional Examinations may be collectively referred to herein as "original entry level appointment." Examinations shall be written, oral and/or an assessment center format and of such a

character and relate to such matters as will, in the opinion of the Commission, fairly test the relative fitness of the persons examined to discharge the duties of the positions to which they seek appointment. All applicants for Original Entry-Level Open Competitive and Lateral Transfer appointments shall receive at least a minimum passing score of 70% on the written examination, as determined by the Commission. Based upon the ranking of scores on the written or other initial portion of the examination process, sufficient applicants in the opinion of the Commission to meet anticipated requirements of the Mayor shall then be required to continue with the remaining portions of the examination process, including the oral interview, prior to being ranked on the final eligibility list. Such applicants may be required to complete psychological testing and evaluation after a conditional offer of appointment has been made to the applicant.

Promotional examination applicants receiving at least a minimum passing score of 70% on the written examination may be required to complete psychological testing and evaluation.

Section 2. Separate Examinations and Eligibility Lists for Police and Fire Fighter/Paramedics

Separate examinations shall be given and separate eligibility lists maintained by the Civil Service Commission for all classified civil service positions in the Fire and Police Departments. No person may be transferred from one list to the other. Appointments and promotions in said departments shall be only from the separate eligibility lists maintained for each of said departments. Transfers of personnel from one department to the other are hereby prohibited.

Section 3. Examinations; Public Notice

Whenever the Mayor requests that the Commission certify names from an eligibility list for a vacant position for an Original Entry-Level position in the Police or Fire Departments or for a Promotional position in those Departments above the lowest grade, the Commission shall conduct an examination to create an eligibility list, if no such list exists for such position. For an Original Entry-Level Examination or a Lateral Transfer Examination, an eligibility list will be valid for one (1) year and no more than (2) years unless the Commission determines that the list is no longer valid after less than one (1) year due to lack of adequate, well-qualified applicants. For Promotional Examinations above the lowest grade, an eligible list shall be valid for not less than one (1) year nor more than two (2) years. At any time after the first year but before the end of the second year, the Commission may determine that the list is no longer valid. All examinations will be conducted within sixty (60) days of the Mayor's request for certification of names from an eligibility list when one is required, or as soon thereafter as is practical. The Commission may conduct an Original Entry-Level Open Competitive Examination, a Lateral Transfer

Examination, or both. Each type of examination will have its own separate and independent eligibility list.

Examinations shall be held under the direction of the Commission at such places as the Commission deems advisable. Public notice of the time and place of every examination shall be given at least 30 days prior to the date thereof on the bulletin board in City Hall. In addition, copies of said notices shall also be posted in the department for which the test is to be given.

Examination notices may be given in any written, printed or electronic form as designated by the Commission. Such notices shall also contain any other information relating to the scope of the examination(s), the weights, if any, to be attached to the various components of the examination(s), the qualifications of the applicants, and such other information as the Commission may deem proper.

Section 4. Development of Examination

Examinations shall be of such character and relate to such matters as will fairly test the relative fitness of the persons examined to discharge the duties of the positions to which they seek appointment. All examinations shall be based on objective and approved examination methods. Examination shall be conducted under the supervision of the Commission, and when necessary and advisable, Special Examiners may be designated by the Commission to assist in the conduct of the same.

Section 5. Safeguarding of Examinations; Candidate Identification Number

At the time of filing a candidate's application, each candidate shall be assigned an identification number by the Secretary of the Commission. All examination papers submitted by applicants shall contain their number only, and any record, written or electronic, bearing the name of an applicant or other identification mark that was caused by the applicant to be so identified or marked shall be rejected and the applicant shall be notified of disqualification.

Section 6. Marking or Score; College and Military Credits; Ranking on Eligibility List

Prior to the administration of an examination the Commission shall determine (i) the overall passing score; (ii) what percentage of the passing score shall be determined by each component or part of the examination process; and (iii) any minimum passing score for each component or part of the examination process. For examinations other than Promotional Examinations: (i) no credit shall be given for residency; (ii) not more than one point of the final score shall be added to the final grade of any person with a two (2)-year college degree from an accredited college or university or not more than two points of the final score be added to the final grade of any person with a four (4)-year college degree

The Commission may also provide that no more than three points to be added to the scores of applicants who have completed at least one hundred and eighty (180) days of active duty U.S. military service, have received an honorable discharge, and have obtained at least the minimum passing score on the written or other initial examination, and further that the applicant has provided discharge documents or other proof of honorable U.S. military service.

No applicant can receive more than five points total added to their scores for college and/or military credit. No college or military credit will be added for Lateral Transfer examinations.

The Commission may contract with others to assist in the examination or evaluation of applicants.

All marking of scores shall be in accordance with the points and/or weight given for the respective components/parts of the examination and credit points established by the Commission and any outside examiner engaged by the Commission. Each component/part of the examination process must be passed or completed prior to proceeding to the next component/part.

The Commission shall have the absolute discretion to limit the number of interviews of applicants, based upon their ranking scores and depending upon the number of open positions to be filled. Therefore, interviews may be conducted when and if they are deemed required by the Commission.

Upon completion of the examination process as approved by the Commission, the Commission will add the various scores and credit points as determined by it to have been used for the particular examination process, or as otherwise provided in these Rules, and place the applicants on the eligibility list in their order of ranking based upon their final scores.

Section 7. Inspection of Papers; Applicant's Right to Object

Any applicant for an examination who objects to the examination shall file a written notice of objection with the Secretary of the Commission as soon as reasonably possible, but not later than ten (10) calendar days prior to the examination.

Any applicant who objects to the conduct of the written or any other component/part of the examination shall file a written objection or protest with the Secretary of the Commission as soon as reasonably possible after the written or other examination component/part, but not later than five (5) calendar days after the administration of the written or other component/part of the examination.

Applicants shall be notified by electronic mail of the posting of scores.

Any applicant shall have the right, at any time within the period of five (5) calendar days after the results of the written or other initial examination are posted, to review the applicant's own answer sheets and inform the applicant as to the markings given the applicant on each subject or question and to submit in writing for the Commission's consideration, any objections or protest the applicant may wish to make concerning a question or the scores given the applicant.

No objection or protest concerning an examination, not submitted in writing, shall be considered unless it relates to the conduct of examiners, the securing of unlawful assistance by a competitor or such other circumstances in connection with an examination as would call for an investigation on the part of the Commission, and which would require that the information submitted be given in confidence.

An applicant who exercises the right to inspect the examination papers shall not be permitted to take an examination again for the same classification within a six-month period following the inspection, unless an alternate form of examination is given. At the sole discretion of the Commission, inspection of standardized tests prepared by experts outside of the City may not be permitted, where such inspection would tend to reduce the validity of current and future test results.

The Commission will consider the objections and take such action as the circumstances warrant, and its findings shall be final.

Any clerical error may be corrected by the Secretary upon discovery at any time during the life of the eligibility list, but no such correction shall affect an appointment from a certification made prior to the correction.

(Letter via Email)

Re: 2026–2030 Memorandum of Understanding Agreement Renewal of PIPE Services (NPDES Phase II Permit, Minimum Control Measures #1 and #2)

Dear Mayor,

Since 2017 your community has partnered with Cuyahoga Soil & Water Conservation District (SWCD) and the Northeast Ohio Regional Sewer District (NEORS) for services related to your community's mandated Public Involvement and Public Education (PIPE) program under the Ohio EPA Municipal Separate Storm Sewer System (MS4) Permit.

Under the MS4 Permit, your community is required to develop, implement, and enforce a Stormwater Management Plan that addresses six Minimum Control Measures, two of which are:

- MCM #1: Public Education and Outreach
- MCM #2: Public Participation and Involvement

Together MCM #1 and #2 make up the PIPE Program (Public Involvement, Public Education). Criteria for the PIPE Program is to identify stormwater pollution concerns, have measurable goals, reach a variety of audiences, actively involve potentially affected stakeholder groups, and evaluate the program's success. All of this must be reported annually to Ohio EPA.

Through a five-year Memorandum of Understanding (MOU), Cuyahoga SWCD implements your community's annual PIPE Program. Enclosed you will find the 2026–2030 MOU for Cuyahoga SWCD to continue providing PIPE Program services through December 31st, 2030. The annual cost for the PIPE Program is \$6,600.00, which is invoiced annually and eligible for reimbursement by NEORS.

Upon signing and execution of the 2026–2030 MOU, Cuyahoga SWCD will submit the 2026 invoice for services. After payment is received by Cuyahoga SWCD, a reimbursement request will be submitted to NEORS on your community's behalf. Payments received before July 2026 will be submitted for reimbursement on a monthly basis, then quarterly July–December 2026. See the enclosed flow chart for a summary of the 2026 PIPE Program Administration, including target completion dates.

Please feel free to contact Jared Bartely, Deputy Director of Watershed & Education Programs, or myself if you have any questions or if there is any additional information we can provide. We appreciate your ongoing partnership in educating and engaging your community in stormwater awareness and environmental stewardship.

PIPE Program

Stormwater Public Involvement & Public Education in Your Community

Cuyahoga SWCD's PIPE Program is designed to fulfill three overall objectives:

Minimum Standards

Over the course of the five-year permit cycle, your community is required, at a minimum, to:

- reach 50 percent of its population with a targeted message,
- conduct at least five public involvement activities,
- develop an annual outreach strategy, and
- evaluate the effectiveness of individual activities and of the Public Involvement and Public Education program as a whole.

Intent of the Permit

The intent of the municipal stormwater permit is to reduce water pollution from stormwater runoff in the community. This means that PIPE Program activities should ultimately lead to a voluntary change of behavior, from that which negatively impacts local water quality to behavior that has a positive impact. Cuyahoga SWCD identifies specific behaviors that impact stormwater quality and focuses on reducing barriers to changing these behaviors.

Community Priorities

Each community has its own unique set of stormwater issues such as stream bank erosion, flooding and water quality. A community's Engineer, Service Department and elected officials are often highly aware of these issues, since residents bring them directly to their attention. Please let us know if there are specific issues or areas of your community that you would like to see addressed by the PIPE program.
